

**【KUT's Policy Regarding Novel Coronavirus Countermeasures】**

- 1 Preventing student, faculty and staff infections is our highest priority.
- 2 We will do our best to provide learning opportunities for our students as we work to ensure prevention of infection priority.
  - (1) Face-to-face classes will be held in cases in which we believe that the risk of infection can be kept low.
  - (2) If face-to-face classes cannot be held for a subject, remote classes will be held, wherein the students will study from home. Remote classes will be done in such a way as to allow for individual instruction via the internet.
  - (3) Usage of university facilities (classrooms, workstation rooms, the library, etc.) will be conducted within limits that allows one to avoid unusually close contact with others.
- 3 Research, social contribution activities, extracurricular activities, etc., will follow the guidelines laid out for pedagogical activities.
- 4 Only students and faculty/staff members with no fever or cold symptoms and meet the university's criteria can participate in university-related activities.
- 5 University-related activities will be conducted with thorough countermeasures to help prevent close contact.
- 6 If an infection takes place, we will strive to prevent the spread of said infection within the university in order to continue university-related activities.
- 7 Work environment for faculty and staff will be considered to improve safety, for example by allowing separate work spaces, and will be adjusted as the situation surrounding the infection spreads.
- 8 Responses to future changes in circumstance will be conducted with all factors in consideration.
