

January 15, 2021

To Students,

Extension of the Suspension Period of Extracurricular Activities

Student and Educational Affairs Section

We would like to inform you that we have decided to extend the period of suspension of extracurricular activities at the beginning of the year, which was announced in "Regarding travel to outbreak areas and special online classes for the start of next year" dated December 15, 2020.

Period of Suspension of Extracurricular Activities
(Prohibition of Group Activities)

(After) January 1, 2021 (Friday) to February 8, 2021 (Monday)

↑

(Before) Friday, January 1, 2021 to Wednesday, January 20, 2021

Although the infection situation in Kochi Prefecture is slightly improving, the infection continues to spread nationwide. There is a certain risk of infection associated with group activities, and there have been reports of cluster infections during extracurricular activities at other universities.

Therefore, in order to reduce the risk of infection, we have decided to suspend group activities until the end of the fourth quarter so that we can complete the curriculum, including the credit approval examinations, toward the end of the academic year and ensure graduation and completion decisions.

In addition, the university facilities will not be available for rent and the bus service for extracurricular activities will be suspended during this period.

This does not apply to online activities or independent practice.

We ask for your understanding and cooperation in this matter.
