Why should you participate in

INHA SUMMER SCHOOL?

## INHA UNIVERSITY Excellence in Global Education

Inha University is one of the most prestigious universities in Korea and has been continually ranked as a top 10 college nationwide. Since its foundation as an engineering institute in 1954, the university has sustained a strong tradition of academic integrity and gained a reputation for excellence in its educational programs and its research in the fields of science and technology and across a broader academic spectrum including IT, social sciences, business, global logistics, education, law, fine arts, humanities, and medicine. Motivated by the strong support and investment of the Hanjin Group, Inha University continues to develop and enhance its educational programs, practical research projects and globalization efforts. Inha's vision continues with its grand project of building a global campus in New Songdo City, a newly emerging international business and R&D hub city in Northeast Asia.

## CITY OF INCHEON Hub of Northeast Asia

With over 3 million people, Incheon is one of the largest cities in Korea. A gateway to Northeast Asia with an international airport and an international seaport in its hand, Incheon is located on the west coast of the Korean peninsula abutting the Yellow Sea. Incheon is an intensely dynamic city bustling with rapid cultural and economic change, and it is now transforming into a global business hub centered around the high tech and futuristic New Songdo City, which is designated to become a center of diverse international businesses and trade.

- Size & Location**
- The second largest city in Korea with a population of 3 million
  - Situated on the west coast, 30 km from Seoul
  - Chinatown, piers, neighboring islands, shopping malls, museums, movie complexes and parks
- Weather & Climate**
- A temperate climate with a wet monsoon summer
  - The average temperature is around 30 degrees Celsius in July-August

## PROGRAM OVERVIEW

Inha University annually offers a summer school program as a part of its goal to enhanced global education. The summer program was first initiated in 2004 to provide overseas college students with hands-on opportunities to learn the Korean language and experience the cultural and academic life in Korea. Since then, the program has continued to develop and has been enriched with more unique and diverse activities, while attracting more participants every year.

This short-term, intensive program mainly consists of classroom lectures, visits to corporate sites and field trips to cultural and historic places. Through the coursework, international students will have opportunities to better understand the dynamic aspects of Korean society in the past, present and future.

One of the most important and engaging aspects of this program is that the learning is not limited to the classroom. Many field trip locations are themselves "living textbooks" for international students, who are eager to gain real world experiences on traditional and modern Korean culture. In addition, students will have many opportunities to meet and interact with Korean students during the program and they will also be able to share their experiences and views with each other through a wide variety of activities both in and outside of the classroom. At the end of the program, participants will receive academic credits and certificates of completion.

In addition to learning about Korean language and culture, students will also be able to take many other interesting courses such as Introduction to Korean Cinema, Introduction to K-Pop Drama & its Multi-Cultural Aspects, New Technology in Daily Life and Reading Korean Culture through Korean Dance etc. These courses will cover theories at the introductory level, present diverse aspects in the chosen fields and include site visits to various off-campus places. The fields and scope of the courses will continue to expand reflecting the interest and needs of students and the global community.

"My experience with Inha Summer School has been full of education and wonder. Thanks to the program, I have met wonderful people, eaten amazing food, furthered my education and broadened my horizons, and because of these things I believe the adventure in my education began here at Inha."

Kaitlyn Taylor from Troy University, the USA
